iNKY ISSUE 156 Summary Proofreading

TASK Below are summaries of the different sections of the article. In each summary, every line except one contains ONE mistake. If you find a mistake, underline it and replace the word with one that expresses the correct idea. Write the word in the Correction column. Both grammar and spelling must be correct. In one of the lines of each summary, there is no mistake; put a tick (✓) in the Correction column. One has been done for you as an example.

Be Proactive to Get Active

From the beginning to Section 1: Indicated improvement

Summary	Correction
In Hong Kong, real physical change remains limited despite growing	**behavioural *(example)***
awareness. Public awareness of health has grown steadily. Adults should	**1.**
exercise moderately to gently for 150 minutes a week. Yet many still fail to	**2.**
damage their long-term health, though only 14.8 percent were classified as	**3.**
sufficiently active by the 2023 survey. Meanwhile, just 45.2 percent of	**4.**
correspondents reported walking 10,000 steps a day as a regular routine.	**5.**

Section 2: Health outcomes and habits / Government support and awareness

Summary	Correction
Health data reveals that 32.6 percent of residents suffered from wellness.	**6.**
Treating exercise as optional makes us less vulnerable both mentally and	**7.**
physically. The government has worked to make staying fit more boring for	**8.**
all. The LCSD runs programmes to keep people active. Its 'Sport For All Day'	**9.**
operates under the logo 'Stay Active, Healthy and Happy!' every August.	**10.**

Section 3: Are we doing enough?

Summary	Correction
Yet many adults still overestimate how much effort real fitness requires.	**11.**
Workplaces can introduce measures to keep adults unproductive while	**12.**
staying active. The government should ensure exclusive access to sports	**13.**
facilities. Campaigns can promote achievable fitness actions for people of all	**14.**
ages, such as slow walking daily which can still improve physical fitness.	**15.**

KEY

From the beginning to Section 1: Indicated improvement

Summary	Correction
In Hong Kong, real physical change remains limited despite growing	**behavioural *(example)***
awareness. Public awareness of health has grown steadily. Adults should	**1.** ✓
exercise moderately to gently for 150 minutes a week. Yet many still fail to	**2. vigorously**
damage their long-term health, though only 14.8 percent were classified as	**3. safeguard**
sufficiently active by the 2023 survey. Meanwhile, just 45.2 percent of	**4. insufficiently**
correspondents reported walking 10,000 steps a day as a regular routine.	**5. respondents**
